DESCRIPTION AND VALUATION OF LOTS:

We try not to get carried away by the enthusiasm of a seller, or the tendency of less specialised auctions to value too low or too high. Our estimates aim to be fair to both buyer and seller, and often give a guide to condition and quality.

A lot of trouble is taken over description, and words such as 'rare' or 'scarce' are not used lightly.

In ascending order we describe condition as 'poor', 'fair', 'good', 'fine', 'very fine', and so on. Defects are usually noted; where nothing is said about the condition we consider the standard of the item to be broadly acceptable, but there are likely to be occasional faults amongst a group of stamps or covers; and when the interest lies in the postal markings, less attention is paid to the condition of a stamp or cover. Scans are generally provided, either in the catalogue or on the website, for all individual lots where the estimate is 360 or more. Any scanned image is deemed to be part of the description.

Where stamps have not been used, 'unused' will mean little or no gum, 'mint' means – apparently unmounted, and descriptions in between speak for themselves; however, 'm' applied to a group of stamps indicates only that those stamps have not, in our opinion, been used.

We do our best to describe lots accurately and the descriptions reflect our opinion. Where a lot is rejected on grounds that are considered appropriate, the purchase price will be repaid. Beyond that the Society cannot accept liability of any kind arising out of the auction.

There are numerous lots to which no describer can do justice and those who can do so are urged to attend the auction and view before bidding.

If you have any questions regarding lot descriptions / valuations, then please contact Simon Richards (0044 (0) 771 368 4263) or email to simon@sidebell.co.uk or auction@bwisc.org.

CORRECTIONS: After publication, description errors / clarifications are required at times, these will be placed on the web site, please check them out.

Additional facilities. It is likely that others will be available on occasions or at some periods to deal with enquiries from those minded to participate in the auction. Details will be posted and updated as far as practicable on the website which members should always check before launching an enquiry.

VIEWING:

A period (11:30 to 13:00) will be available for viewing before the Auction.

For any special facilities please contact Simon Richards as above.

IMAGES/SCANS:

Images are not true size, they have been adjusted to fit on pages.

Under the 'pic' column 'front' means front cover, 'back' means back cover, or page 99 etc in the printed catalogue, check the website <https://wipsg.org/auction> for more and fuller images of larger items which will be uploaded as they become available.

EXTENSIONS:

Should you require an extension to submit an item for expertising please inform when making the bid, and at least 48 hours before the auction. Expertising fees, for good or bad results, are to be borne by the successful bidder.

BID VALUES:

Lots cannot normally be sold below 80% of estimate, and may be reserved up to, but not normally beyond, full estimate (indicated by a 'R' after the estimate). Also, the seller may compete in the auction. Postal bids are executed as economically as the competition allows.

Bids are in sterling with normal rises of 50p to £12; £1 to £40; £2 to £60; £5 to £120; £10 to £300; £20 to £500; four increments per £100 to £1,000; by £50 to £1500; by £100 to £2,000, then at auctioneer's discretion. Lots are sold at about 200 an hour.

We try to ensure absolute fair play between postal bidders and participants in person. In case of misunderstanding or dispute, the auctioneer may re-open the bidding; otherwise the fall of the hammer closes the sale. Commission from sellers is 10%. The hammer price is what the buyer pays (no buyers premium).

WIPSG Auction #52 - Saturday 11th May 2024

Where tied bids are received the earliest to arrive receives priority, BUY bids are respectfully declined. The bids must be received by 2pm GMT (3pm BST) on Friday 10th May 2024. Within that timescale the bidder is allowed to amend the bid sheet.

Some facilities may be available to those attending the sale and themselves in the auction room, or bidding live through a proxy still in the room. The proxy must be a seated live bidder. Members engaged in recording, distributing lots, or equivalent admin. activities are not available as proxies and the auction will not be interrupted to receive written bids at breaks in the sale.

The facilities include:--

- Updating or amendment of auction descriptions and prices

- The possible addition of lots available only in the Room

The offer at fixed prices of additional literature items. These, if on offer, are intended to be listed, should be signed and time-dated by purchaser, to be handed to the auctioneer when the sale concludes. His decision as to priorities, and availability of any item for collection will be final.

Subject to contingencies, we intend to conclude the auction at or before 5:30 pm, even if the full number of lots listed in the catalogue as listed have not been sold under the hammer. In that event written bids may be left to be dealt with post-auction as absent bids. Any decision of the auctioneer as to who is the purchaser of any item on offer, and at what price, if made in the Room or otherwise on the day of the sale, shall not be open to subsequent review.

BID SUBMISSION:

All bids received prior to the cut-off will be acknowledged, provided you leave an e-mail (for preference) or telephone contact number. If your bids have not been acknowledged it may mean they haven't been received.

All bid forms by post should be returned to Simon Richards, Heathercombe House, Drayton St Leonard, Wallingford, Oxon OX10 7BG, United Kingdom.

All other bids should be submitted by email either to simon@sidebell.co.uk or to auction@wipsg.org placing 'WIPSG AUCTION 2024' in the subject bar, up to 15:00 BST on Friday 10 May 2024.

As an emergency concession to those whose local time from their point of communication is six hours or more behind GMT, for the purposes only of correcting or modifying a pre-existing bid on one or more lots a telephone attempt may be made to Simon Richards +44 (0)771 368 4263, up to 09:00 BST on the day of sale. No guarantee can be given that any emergency call of this nature can be acted upon. We will simply consider what, if anything can be done in the circumstances prevailing on the day of the sale. Any last-minute attempt to submit additional bids will be disregarded but if any such attempted bids are confirmed in writing (including email) within three days of the auction, they will be treated as offers (backdated to the time of call) to buy any unsold lots listed at their prevailing offer price.

Telephone bidding, if available this year, will be restricted to lots with an estimate of £150 or above.

Requests can be made by email to auction@wipsg.org and should be subject headed "Telephone Bidding" and should be made sufficiently in advance for arrangements to be finalised. A fee will be incurred. As an alternative, the auctioneer may allow a non-member whose authority and credentials have been duly established to bid as a proxy for the absent member. Any participation by such a proxy will be binding in all circumstances on the absent bidder (look out for website updates)

All bids are dealt with in order of receipt, and the earlier of two equal bids takes precedence; but where the bidder imposes an overall limit on his or her spending, priority may be affected by the need to respect that limit.

PAYMENT

Payment should be made in GB £ unless an exception has been agreed in advance.

Payments in any other mode or currency must be agreed and authorised by Simon Richards who will be as accommodating as circumstances allow. Paypal is available by arrangement, the purchaser to pay the fees.

Lot	Description	Est £	Pic
Anguilla			
1	Leewards KGV ½d and 2½d clearly used in ANGULLA VALLEY may not excite too much until you notice that the ½d is Die 1 and cancelled 3 AU 32 – checking the wmk though and it is MCA, so a late use of SG47 and not SG82 after all – oh well!	8	
2	A range of over 100 items, mint used and some covers. The mint is largely the 1967 second definitive series and subsequent commems, the covers include three philatelic covers with the 1967 Independence issues which now have a considerable catalogue value; and the used include a nice range of stamps cancelled in Anguilla from GV to Independence. You also get a registered packet receipt of 1968 from the Valley plus an unused Air Letter form overprinted INDEPENDENT ANGUILLA – an interesting lot, seemingly untouched for 20 years – with a new book coming out, just the time to start a new area	75	
3	Between March 1969 and December 1970 Britain operated BFPO 1046 on Anguilla for forces sent following the island's second declaration of independence. Here we offer five covers and two airmail letters with GB stamps cancelled with the Field Post Office date stamp, the air letters are to Hare and Sinclair Brown, hence philatelic correspondence; one of the covers to a Miss Murray would seem distinctly unphilatelic and the other three are to Post Roses in Waltham Cross	60	p2
4	Also with FPO 1046 and dated 19 MR 70 is an OHMS envelope sent to the Royal Engineers Barracks in Maidstone and bearing the boxed 'LAND FORCES/ANGUILLA' hand stamp – sent post free	45	web
5	Some 25 or so covers from the 1970's largely from Anguilla Valley, but with some h/stamp interest, such as a large VALLEY AIR SERVICE, three items show the cancel of the Anguilla Post Office Travelling Branch – a good number are philatelic but Radio Montserrat material also present	25	
Antigua			
6	A pair of pkt entires to Whitehaven, England with fair to good strikes of the Antigua dbl arc: FE 10 1848 rated 2/-; JA 14 1851 for 1/-	35	
7	The envelope is quite grubby, but this decent strike of the Crowned Circle Paid at Antigua was applied 27 MY 60 – which on our records is the first recorded use after the Colony took over responsibility for the post when this env went to Whitehaven for 6d, a known correspondence	180	p2
8	GB 6d wing marginal tied to piece by clear A02, SGz5 cat. £180	60	p2

12	6d purple and drab SG36 fine used, Cat. £55	18	
13	Block of 12 from lower left corner of the sheet with plate no. 1 of the 2 ½d blue with MCA wmk, SG46, heavy gum toning, but perfs appear fine, cat, £38 each or £456	75	p2
14	Blocks of four of the ½d and 1½d War stamp (SG52, 54) from the top rt of the sheet, with full mgns and the plate no. some perf splits, cat. £27+	8	
15	A used vertical strip of 5 of the ½d optd War Stamp (SG53) on small piece with full sheet mgns and both plate nos, is combined with a used block of four of the 1½d optd WAR STAMP also on piece (SG54) Cat. £25+	10	
16	Complete sheets of 60 the 1916 ½d green optd War Stamp in black, and the 1917 issue in red; together with the 1½d optd War Stamp. Folded in half but otherwise seem in good condn (SG52-54)	60	web
17	Old time page laid out to show the shades of the 1921-29 Script CA set in fine used condn SG62-80, 37 stamps in all, incl. the four higher values, cat. £300+	75	web
18	A page featuring the 2d grey SG70 and the 'Shifted Decoupage' described in the Philatelist in February 1979, you get a normal and two singles (pmk 1925) featuring the shift as well as an example on cover to New York DE 19 24 with a violet 'NOT FOUND' h/ stamp – the pmk's suggest an error on the third printing	35

24	G(REEN) BAY on Leeward ½d, die II, SG59 a little hard to read but we make the date AP 11 34 which is few months after the LKD given by Proud, though still before the office closed in 1936	50

26	Two QV Leewards used in Antigua: 1d to Chipping Norton AP 9 02 and 2½d to Albany, NY NO 21 99	25

289	When you associate Dominica pmks with Leeward I., bear in mind that Dominica reverted to Windward at the end of 1939. We have KG5, Leeward (3) with Barbados Posted on Board and 15 more appear on the domestic issues to which you can add as maritime, one Paquebot, one Trinidad and the "Posted at sea/ Received St John's", 3 o'clock on 1½d / 2½d orange, two KG6 among forgoing. Last page of domestics includes 5 earlier Portsmouth, with 2d, 3d same on War Tax, 3 king's head/badge and a decent ROSALIE on early landscape	30	
290	In 1883 a front with a postal fiscal 1d can only hold SGR1 which, in spite of its real rarity unused is rated a little lower than R4 on cover, but still from £120. The example here went to "Mrs Small, Eden", a very clear cds on the front, its year '83 much more heavily struck than the rest. There are signs of glue around the edges of the stamp, probably used to produce adhesion when attached, as the stamp is convincingly tied. This does not, to ourselves have any flavour of a sending by favour, in contrast to other covers we have seen, and we treat it as a private correspondence, and a small stained area at NE of stamp is consistent with glueing. Rare	35	
291	Harking back to an original landscape CC (or perhaps the MCA successor, the 1910 1/- black/green, the 1½d and 3d War Tax and the 1½d / 2½d orange, went on a cover from Portsmouth regd. to Vienna, without regard to the actual postage required for the journey, so far as we can see. By today the recipient would probably have got much better value from 1/7 spent on the landscape script issue, but what does anyone know today of values 90-odd years ahead? Anyway this 1925 cover is busy but decorative	5	
292	Mixed group with Dominica connection to clear: incoming from GB with 1d lilac, Dec 00; front to Philadelphia 1902 with Leewards ½d and 2x 1d affixed marked 'per Fontabelle'; 1933 2½d ultramarine to Atlanta; long 1938 cover to Detroit at 5½d; 1950 cover to New York at 3½d; UPU set on FDC to Gayle, Jamaica; Peco ppc of 'loading bananas at Port Morant, Jamaica sent to Chipping Norton from Roseau in 1934 with Leewards 1d, slightly marred by a punchhole.	25	
293	Four covers sent via Antigua: to Canada OC 35 with full SJ set plus 3d all cancelled with some ort of 'dumb' device – on arrival in Antigua the full Antigua SJ set was added on the back with additional 1d and 3d, these are all cancelled with a d/stamp; the other three covers are to the US sent airmail for 1s 2d in February 1943 all opened and resealed by different examiners (1785, 4071, 14556 – each bear the AIR MAIL via ANTIGUA h/stamp	40

Dominica contd			
294	When Dominica separated from the Leeward Islands Colony at the end of 1939 the Federal stamps were immediately invalidated. This Roger Wells cover from Castle Bruce was sent to Grimsby on JA 11 40 with Leewards KG6 2d and 2½d paying the registered rate it went via Rosalie to Roseau and two T marks were applied to denote unpaid, though they seem then to have been blotted out – so was it invalid or not?	50	p7
295	A group of five covers all with handstruck 'PASSED BY CENSOR' one, neatly written up on a page, is to Jamaica 9 AU 41 (1s 2d); the others 14 MY (41) 1d unsealed to NJ; 26 JU 42 to NY (5d) with US resealing; 3 MY 41 to Maine (3½d); incoming from NY JUN 5 40.	60	
296	4 wartime covers from Dominica: first to NY 21 FE 41 3½d with OPENED BY CENSOR PC22 red resealing tape tied by violet censor hand stamp H6; 23 J(?) 44 to Nottingham for the 2s 7d all air rate resealed with I3a PC90 label with hand written RR/16; JA 26 cover to PA (4½d) signed in violet by Merrill, we leave to attribute any significance to this; MR 31 45 cover to Florida by air with five stamps making up the 1s 1½d rate with US resealing examination tape.	75	
297	Leewards 1d QV PSC used in Dominica FE 12 92 to Charlotte Amalie, in St Thomas, where it arrived 6 days later and was taxed 2c as underpaid – our addressee was on SMS Molte, the German training ship then on a goodwill mission. It seems the Dominica large 'T' is in use five years earlier than Proud records for UP1	30	
298	Here we offer a Leewards 1½d PSC addressed to Hampshire, headed 'S.S. "Esk". Montserrat W. Indies Thursday June 16th 1892'. The lengthy message was posted in Dominica the next day	50	p7
299	The 1931 KGV 1d red PSC used in Dominica MR 10 37 to send a message to Boston, requesting philatelic supplies, some mild creasing top rt, but scarce and commercial	50	p7
300	A small group of 7 b/w ppc: one Jose Anjo card used DE 3 02 to Suffolk as early a use as your describer can recall. Only one other is postally used, four unused from the interwar period and one probably post-war	30	
Grenada			
301	Three covers from the 1840's to the UK featuring the Grenada gothic dbl-arc d/stamp, all rated at 1/-. From a postal history perspective the most interesting is from the commanding officer of the 71st foot enclosing a copy of regimental board meeting minutes held in Trinidad	48	web
302	GB 6d tied by A15 cancel to JY 27 59 outer to Glasgow, couple of filing folds but sound example of GBz4 on cover	105	p7
303	Neatly arranged and written up album page for large star 1875 1d Chalon SG14 contains 3m. 7u., all looking fine as stamps, and the pmks unobtrusive except one feature the mark in brown, and another to point to a blind perf where a pin had broken. We wonder how long Somerset House tolerated that, though there's another example m. – cat. £311	40	
304	A carefully mounted and protected page of Chalons from which one 6d has been removed leaving in place 7 x 1d, 4 x 6d, and 6 of the 1875/81 surcharges mixed m. and u., and in our view must cat. in the high hundreds, reveal a rounded corner on SG2 and otherwise look gd to fine for condn. We have to guesstimate	75	web
305	The 'postage half-penny' on One Shilling in imperf m. pair format SG21a, cat. £300	75	p7
306	The 1898 Columbus stamp optd SPECIMEN, cat, £85 – the perfs are commendable a small diagonal crease slightly detracts, as does an old style hinge clinging to the back	28	web
307	The 1d WAR TAX overprinted SPECIMEN – SG111s, cat. £45	18	
308	A complete sheet of 60 of the 1d badge of the colony SG136a, full margins and printer's imprint – attractive cat. just £36	18	
309	Set of seven of the second series of Parish Letters A to G	20	
310	Village cancels on three covers, two on pages. Firstly Grenville to New Jersey 22 SP 24 with 5d (SG124) added; then two items form Sauteurs, PSRE to Montgomery Ward 16 OC 24 3d added (SG121) and one MY 20 11 to Detroit 2½d (SG80), two indifferent postcards included but not valued	35	web
311	On Brian Brooks page a cover printed with address of H. F. Ketcheson of Belleville, Ontario regd from St Georges, carelessly using 2x 2½d/8d grey-brown SG47 to pay regn and carriage 28 JA 93, 12 days via NY. Sender could have saved ½d on fare and manifestly couldn't be bothered to find the right stamps	35	
312	With what intent did a cover with the handstamped address of Gerald Smith, Marine Cottage, St George's, Grenada, B.W.I. come to be posted unstamped from Kingstown, St Vincent? The 'T' mark seemingly had a pencilled note "unrecorded" on the part album page. We refrain from comment as we do about a small red ink heart on the cover enclosing H. So we have cds of origin MY 8 93, Grenada thimble MY 12, blue crayon 1/25 and SGD1-3 to collect 6d – but isn't that too much?	30	
313	What seems to be a genuine commercial envelope sent to the Audit Office in St Vincent by the first PanAm experimental flight piloted by Capt Arthur B McDavid in early April 1927, just 1d too – worthy of further research, appears to have Pilot's signature	30	
314	Also on a Brian Brooks this cover from the Postmaster, Upper Stewracks, Nova Scotia is endorsed "Per C.N.S. Lady Hawkins". No cachet for this one, which was posted 20 NOV 30 from St Georges before anchor was reversed	12	
315	Three covers, written up on pages, struck with carmine or red 'PASSED BY CENSOR': 9 Sep 1939 (!) from Venezuela to Gouyave via Trinidad; registered item to Texas 24 Nov 39 and incoming from Dominican Republic 18 Mar 40	50	
316	Two covers resealed with L1 'OPENED BY CENSOR' resealing tape. 8 FE 40 from CARRIACOU to New York, 3d surface rate, with censor '5' in red crayon; paired with incoming cover from NJ MAR 12 1940 with censor '3' in red crayon on the tape	35	
317	Censor 3 also features on this cover resealed with L3 tape (OPENED BY EXAMINER/ SS.) on 11 SP 42 to a museum in Philadelphia for 5½d marked 1 oz and clearly a commercial usage	30	
318	The L5 label (OPENED BY EXAMINER/I.S.S./-) of examiner 2 was used to reseal this 20 MR 43 envelope to London, sent airmail for 1s 4d	35	
319	We combine two resealed censored covers here; firstly outgoing to London for 2½d 17 AP 45 resealed with L6 tape of examiner 5 where the pre-printed S.S. has been preceded with a manuscript I.; secondly the L8 tape of examiner 44 was used to reseal an incoming item from Barbados, sent 21 JY 44 for 6½d	60	
320	A scarce item of consignee mail sent from St Georges to London endorsed per SS Martaban for 2½d cancelled by PAQUBOT and bearing five good strikes – one front and four back - of the H7 circular PASSED BY/S Crown S/4/CENSOR mark. The reverse is endorsed 'consignee mail 12-4-44' which coincides with the EKD given by Burrows – could be the discovery copy and scarce – just four known according to Pearce	90	p7

321	Forgive us please if we find it difficult to measure perfs and widths on a KG6 10/- which subtends 6 penn'orth of lower values from ¼d pair up, lining the north and west sides of a regd cover 27 MR 1945 addressed to Mrs Harry B. Jones, Perkins School, Lancaster, Mass. by air from her friend Mrs Nigel Campbell, Green Gables. You see, we make out the 10/- as belonging to SG163, and shall so treat. Our problems were worsened by an Examiner's label sprouting top to bottom on the west whose number, wouldn't you guess, collides with regn R. We think no. may be 5920 – don't count on it. How to value is anybody's guess	50	p7
322	The 1881 Perkins Bacon postal stationery cards 1d and 1½d fine unused, only 1,000 printed	60	p7
323	Out of the many KG6 ¼d/½c wrappers that we have seen, this ½c wrapper is the first to be handled with enthusiasm. It went uncanceled to a named addressee, Union P.O. We don't know how long it rested there. On 15/9/51 it was signed – we assume by the Union Postmaster – h/stamped black UNCLAIMED twice, and violet RETOUR, this taking place 18 SP, you won't read but will easily interpret the dbl-ring UNION cds and the DEAD LETTER OFFICE receiver is loud and clear	15	
324	Two Cable & Wireless used telegram forms firstly to send a telegram to Antigua 22 Jan 44 with KG6 ½d, 1d and 3d added; then a newer format sent 10 Oct 67 to Sauteurs with 3c added	40	
Haiti			
325	We pair Britain and Haiti with these two covers, ex Booth. 1/- green p14 paid for this cover to go to Jacmel from Liverpool on 16 Jun 1870 with fine forwarding agents cachet of Herbert & Yates in green; whilst on April 1875 an envelope was sent by the packet to London with hand struck 3/- on front and the quite scarce Port au Prince d/stamp code A	60	p7
326	The same Port au Prince cds was used DE 2 73 to send this item to le Havre via London with the boxed GB/1f60c and nice agent cachets on front and back quite why Jacob & Co (of Ragoane), who stamped the letter 20 Oct 73 took so long to entrust it to the packet we leave for the buyer to determine. With it we include a page with an unused postcard depicting RMS Orinico and a 3c Haiti PSC carried on it when uprated 10c (1,2 3 and 4c) sent to Lucerne from Jacmel 21 June 1899, ex Booth	40	web
Jamaica			
327	JAMAICA, (Potter type J2) on a 27 February 1763 letter from the Perrin Fitzherbert correspondence sold by Cavendish in 1989. Despite the mark it is clearly a Ship Letter in the period just before UK Ship Letter marks were introduced, rated '9' with London Bishop mark of 9 MA(rch) and inscribed 'By His Majesty's Ship St Ann', well written up on page with typed transcription	200	p8
328	A very fine strike of IAMAICA (Potter type J4 – narrow A and M) on a 25 March 1775 packet letter rated 1N also from the Perrin Fitzherbert correspondence on similar well written up and transcribed page, Bishop arrival mark of 31 MA contents mention 'Caribbean being awash with American Privateers operating out of "neutral" French ports'	95	p8
329	IAMAICA features on pair of packet letters. The first, a clean outer only, endorsed 'per Sandwich Packet' was sent to John Cockburn in Edinburgh in 1785. The second, and entire, but with age stains, has the better strike, and was sent in 1790 to London's Berkeley Square	80	p7
330	On this opened up 1808 pkt entire to London you get two fair strikes of the Jamaica Large Fleuron with discernible date of 7 FEB 1808, 2/- rate	75	p7
331	A pair of covers with the two-line MONTEGO BAY/JA mark and a fleuron packet mark. The first is date/stamped 11 DEC 1808 and went to Edinburgh for 6/9 on the packet, good strikes of large fleuron and Montego Bay, but some wear; our second letter to Somerset 12 Jun 1815 shows a smaller fleuron and both strikes are less bold	105	p8
332	A group of four covers from the manager of the Perrins Estate, Vere to Sir Henry Fitzherbert all feature fair to good strikes of the Vere double arc date stamp of 7 Sep 1846, 22 Sep 1847, 19 May 1848 and 6 Oct 1848, the third seems to be in red, the first three rated 2/4 and the last a single at ½ - Vere clearly struggled with the date plugs as the missing plugs have been inscribed manually. An interesting story of the decline of sugar in the West Indies	100	
333	Early postal history clearance lot of five items: 1786 incoming pkt letter from Abernethy to Spanish Town, with transcript; 1835 letter per Nightingale pkt to London with inspector's crown and fine G:P railway mark; 1844 pkt letter to London 1/- paid; 1849 entire with Spanish Town d/stamp to London; 1851 with good BATH (Jamaica) d/stamp to Aberdeen	40	web
334	1 Aug 1853 env from Reading to Jamaica with cut square embossed 1/- margins so large the '635' numeral does not tie it to the envelope but the rate, the inscription by packet and via Southampton all convince	250	p8
335	Incoming mail with 'Spoon' cancel from Liverpool AU 15 1856 is addressed to the 'Engineer in Chief, HMS Arrogant' and went at the concessionary rate of 1d, paid by 1d star.	120	p8
336	The Chester Spoon cancel was applied to this DE 16 1856 letter to Port Royal cancelling 2x 1d str and 4d on blued paper (SG62 or 63) making up an attractive packet rate; we pair with a 6d lilac cover to Sav La Mar cancelled with the Bristol spoon FE 13 1857 making the usual packet cover	150	p8
337	A pair of incoming 1861 covers each franked with 6d lilac paying the packet rate and showing the 1d red accountancy mark – the first to Newcastle, Jamaica is from Douglas Isle of Man and shows a fine strike of that duplex OC 17 61; the second is to Mandeville from London	105	p8
338	Letter from Revd John Elliott writing from May Hill 25 April 1857 to a friend in London; no Jamaican markings as carried by another friend and trusted to the post in London on arrival with a 1d star	35	web
339	Two covers from Kingston with GB 6d lilac cancelled with the A01 duplex paying the packet rate to England; JU 28 59 to Manchester and DE 11 59 to Liverpool – this a particularly good strike, but a filing crease detracts somewhat The next nine lots are from the Paul Hancock collection of GB used in Jamaica with numeral cancels and are offered in numerical order	150	p8
340	GB 4d pair cancelled A28 Annotto Bay, the only pair known according to the Encyclopaedia – SGz21 cat. £500+	180	p8
341	GB 6d on 3 March 1859 cover from Black River to Kingston, neatly tied by fine 'A3-' cancel on only the third day of use, EKD, and ex Hugh Wood (2020) and Brinkley Turner (1942)	200	front
342	GB 4d superbly struck with A36 (H) of Dry Harbour. The h/stamp was lost shortly after issue and is scarcely recorded on pines. Only four examples are known and this is the one in the encyclopaedia – the second rarest mark according to Woodward – SGz45 cat. £550	180	p8
343	GB 6d used at Ewarton (A38) is one of the stars of the Hancock collection. Though SG state Ewarton was closed before this mark was issued and Foster claims no examples have been seen, Topaz knew of one, presumably this example which has an RPSL certificate of 1977, which missed that the wmk is inverted, but we're pretty sure you are more interested in the postmark	700	front

344	March 1 1859 was the first day of use of the numeral cancels in the villages. Ex Glassco, Bollen & Dewarin, minor filing fold scarcely detracts	350

Of course they aren't UNLESS one is discussing Archives in Specimen form. And here they are removed from their former thick card backing, bearing in red the Bradbury Wilkinson diagonal overprint. Value? Well four standard Specimen sets would cat. £560. And, by the way, you couldn't find an ordinary Specimen set in blocks of four – think about it. These must be alone in private hands	750	front

355	Small envelope sent from Hope Bay on 22 DE 86 to Port Maria where it arrived two days later. The postage a 2d slate, SG20a cancelled with an excellent strike of A47, not tied, but the instructions were to cancel the stamp not 'tie it to the envelope'. A probable LKD	40	p8

The Paul Hancock collection of Numeral postmarks we are privileged to have ben consigned this outstanding collection of numeral postmarks which contains many very rare items. Paul was always looking to upgrade the quality of his strikes and the result is evident in the quality on offer. The collection will be offered over the next four or five years and we start by offering something from most of the offices.			
372	A27 Alexandria – superb strike on 3d pine, rated rare, stamp with slight faults	20	
373	A28 Annotto Bay – type H complete on two pages, with the six pine values supplemented by an additional shade of the 1d and 2d and one each of the seven CC values to 1s, all sound to superb strikes	80	p9
374	A31 Brown's Town – page with the five pines to 6d and 5 CC to 6d, missing the 3d value	60	
375	A33 Chapleton – set of six pine values, all strike with very fine to superb numeral cancels, minor faults on or two adhesives	60	p9
376	A34 Claremont is very rare on 4d pine (SG4). Here a superb strike on slightly faded stamp	30	
377	A35 Four Paths (as Clarendon was renamed in 1876) on the three keyplate values and the 2½d opt on 4d (SG27-30), the strike on the opt is particularly fine and is Ex Winand	25	
378	A35 on 1d rose keyplate optd OFFICIAL is rated Extremely Rare, fair strike	35	
379	A36 Dry Harbour (as we explain in the section on GB stamps used in the villages) the type H obliterator was lost early on the type L obliterator that replaced it did not arrive until 1862 – in the meanwhile stamps were cancelled with '36' I manuscript, here we offer the very rare 4d pine so cancelled	90	p9
380	A37 Duncans – attractive page with six pines supplemented with additional shade of 1d and 6d; the wmk CC set to 1s lacks only the ½d value, five stamps apparently ex Winand and one ex Hemmings, which is illustrative of the care taken in selecting strikes	80	web
381	A38 used on wmk CA stamps is most likely usage from Up Park Camp where the A39 type N was re-allocated in April 1884. All such usages are rare and here we offer the 2d CA with a quite superb strike	30	
382	A39 Flint River on 3d pine, a superb strike, very rare and ex Winand	30	web
383	A39 the three keyplates (SG27-29) with very fine of better strikes of A39, the 2d very scarce, the 2½d rated rare	50	p9

386	Even the 1d keyplate rates as rare when struck with A41, a superb strike	25	
387	A42 may be one of the more obtainable numerals, but to try to appeal to members to start collecting this area we offer three pages devoted to this one number, as Paul had them, to show how it can be done. You find the full pine set with an additional 2d shade and 2x 1s shades, the CC set to 1s, the CA set to 4d, bar the 3d, two keyplates the 2½d provisional and the 1d fiscal- 28 stamps in all and you will have to go to some considerable trouble to match the quality of the strikes	125	
388	A43 Goshen was renamed Santa Cruz in 1883 and the post office moved a few miles, so these three OFFICIAL opts were used at the new office – SGO3-5	45	web

398	A53 was reissued in May 1863 with the figures 1mm larger (6½ mm v 5½ mm originally) finding this larger size on pines is an extremely rare occurrence, but here we offer a fine strike on 4d brown-orange (SG4)	70	p9

417	A65 Port Morant on page with set of six pines with additional 1d and 1/- shades all with fine or better strikes	90	p10
418	Spectacular strip of three of the 1d rose fiscal SG F3 each cancelled A65 even a single cancelled there is rated extremely rare	90	p10
419	A66 Port Maria set of six pines with fine strikes, two ex Winand and the 3d with inverted wmk	70	p11
420	The 6d yellow-orange (SG23) is exceptionally hard to find with a numeral cancel, Topaz only recorded it used in two offices, here we offer a good A67 of Port Royal missing the '67' are clear but you only get the right leg of the 'A' – justifies its extremely rare rating, ex Hugh Wood	75	p11
421	Bill Atmore in 'Land of Wood & Water' reported that manually assisted A67 cancels of Port Royal were included in the Surtees and Mitchell sales and it seems were needed due to excessive wear or damage to the obliterator. These two examples on CC 4d and 6d are ex Hemmings	20	
422	We leave the pines cancelled A69 of Ramble on its page so that you can see the provenance - one each from Hemmings, Nethersole, Potter and Winand. The set has an additional 1/- in purple-brown. Highlights the care Paul took in building his collection	70	web

428	The A75 (H) was lost or damaged early on and not replaced by type L until 1862, in the meantime a date stamp was used the reported date range is 7 March 1861 to 6 October 1862. Here we offer an example of the 4d pine (five recorded) clearly dated JY 31 62 and a 6d (sixteen recorded) with a super strike of JY 31 1861	40	web
429	The A75 type L is by contrast readily found on most values through to 1890, but these two pages offer quality strikes on the 6 pine values, the seven CC values to 1s and the CA values to 4d – 21 stamps in all	80	p11
430	A76 Spanish Town is another office where new obliterator had to be issued, in this case a type J in 1874 – this makes A76(H) on wmk crown CC stamps either very scarce or rare, here we offer the ½d, 2x 3d, 3d, 6d, 1s – the last three ex- Winand – 6 stamps	40	web
431	Page with A77 Stewart Town on pines, the set of six ex Winand and an additional 1/- in purple brown ex Hemmings	70	
432	A79 (H) was made in London but not issued until November 1863 to the newly opened office at Richmond, it must have been damaged early on as a type J obliterator was issued in 1866 so the type H is only found on pines and are very rare indeed. Here we offer a 3d green with a very fine strike	150	p11
433	The damage A79 was the loss of the '7'; but the damaged obliterator was pressed in to service at the Mount Charles post office in 1874, and so can be found on wmk CC stamps – here on the 2d, very rare small piece of btm rt corner missing, not affecting pmk	120	p11

536	A bit of double vision is needed this year with Montserrat QV: it is not necessarily overlap, as these f.u. examples of CC 4d, CA 2½d both colours and 4d mauve all look to be comb (never quite certain in singles, of course). In SG terms it's 5, 9, 10, 12 f.u. cat. £137	25	
537	The KG6 1938/48 defins on page which contain all shades and perfs, 23 stamps totalling cat. over £340 for the m. section. They all look carefully chosen and fine, which, with the current popularity of KG6 issues, merits	70	p42

645	Trio of late victorian covers: FE 21 96 Myerscough cover to London with 9x ½d green SG47; scarce DE 30 91 2½d on 4d chocolate (SG54) used locally and FE 19 97 2½d on 1d blue (SG55) to London	90	p45
646	Examples of the 2½d chocolate SG54 are not common, even if we do have two in this year's sale this JU 3 92 usage to Kingston has a blemish bottom left but is enhanced by a red St Vincent d/stamp two days later	60	p45
647	Myerscough covers can also be found from the village offices, UNION, in this case again with 9x ½d green and with the Union REGISTERED h/stamp sent AP 29 98; Peter Jaffe's example sold for £200	105	p45
648	Govt house env with early registration label with numeral 18 in manuscript sent registered SP 18 05 to London's Sloane Square before being forwarded to Brechin. 2D h/stamp with 'To Pay/posted out of course' inscribed and the franking – QV keyplate 2½d and 4d	75	p45
649	The KE7 size H PSRE in fine unused condn (flap stuck down) is a difficult item to find	50	
650	The perf 12 6d green with CA wmk in rejoined m. pair optd Revenue (PML 12), the wmk may suggest that these two were not originally joined	20	
651	The 1882 5/- opt REVENUE with boxed D.K.P & Co and date 11 SEP 84 cancelling, Barefoot 6	30	
652	The 1d drab, Barefoot 9a with Revenue opt inverted, lightly cancelled in manuscript	30	
653	The 5/- optd REVENUE, Barefoot 20, a single and pair, one with slight crease, manuscript cancels	60	
654	The greyish purple shade of the Barefoot 20a REVENUE on 5/-	30	
655	One Pound on 5/- optd Revenue, PML 27, cancelled in manuscript, the example in Michael Medicott's sale realised £900	300	front
656	TEN POUNDS on Revenue 5/- PML 28 was printed in 1888 this example has an 1893 manuscript cancel and is distinctly scarce - neither Medicott nor Jaffe had one	600	front
Tobago			
657	Pair of outers from Tobago to Edinburgh, with fair to good strike of the Tobago dbl circle; the first MR 8 50 (double rate 1/-) the second FE 24 54 (rated 1/-)	45	web
658	Though we don't go a bundle on the CC ½d to 4d SG8-10 m. the slash flaw on CA ½d green u., 1d rose-carmine m. and u., 6d orange-brown and 1s yellow-ochre both m. add considerably and you get both 4d yellow-green and 1s yellow-ochre lightly used. Cat. £1,020 for those that matter and ignore the remainder	160	p45
659	Stockcard of just 9 stamps cat. £725 includes 6d stone, 1/- yellow ochre, 2½d/6d SG11, 12, 13 so the total is inflated by the over-priced ½d purple-brown CC, condition looks healthy	150	p46
660	QV Trinidad PSRE to London's Gracechurch St, sent from Tobago MY 7 01, via P of S two days later – three strikes of the Tobago d/stamp, one code B and two code C	18	
Trinidad			
661	Entire to John Dunlop in London sent per pkt for 2/2 with fair strike of small Trinidad fleuron on the reverse OCT 7 (1)835	60	p46
662	A pair of packet entries from the same correspondence to Glasgow both with a filing crease poor to fair dbl-arc on reverse MY 2 1843 and MY 16 1843	50	
663	By 1844 with the benefit of the 1/- packet rate, a whole letter sheet could be used merely to wrap the contents, with no extra charges – and the age of the waste-makers has begun. This example (from John Collingford to Rev. John Beecham of London's Bishopsgate left Trinidad MY 6 (a dbl-arc c.d.s. on flap) and was received on 5 June	25	
664	A reprinted plate proof of the seated Britannia design could be just at home in your Barbados (or Mauritius) collection and comes with RPSL certificate from 2004, the certificate says 'probably from "13 Vignettes" plate and with observation, weak impression	40	
665	If you read the note under SG2 in Part 1 it says 'known on paper bearing the sheet watermark 'STACEY MILLS' – here we have a block of 12 from the remainder sheets that may well be the discovery block. It comes with a 2004 RPSL certificate and a photo showing 'WISE' along with some of our vendor's notes and pages from the Vincent Greene Foundation on how this watermarked paper was used in Newfoundland. The watermark is not easy to see or to value and is unpriced by SG, but our vendor values it highly	2000	front
666	SG3 in unused block of four, presumably from the remainder sheets, but attractive with nice even margins	25	
667	A block of four of the 4d grey-lilac imperf unused (SG25) shows the uneven layout of the stone and how hard it was to get four clear margins, here the bottom right stamp is just trimmed at its base but the other mgns are fine and the block seems to be from the right edge of the sheet. According to Marriott, multiples of the 4d are rare and come from the remainder stock of which there were just 50, cat. £480+	180	p46
668	The second lithograph issue of 1855, SG15, with four even margins, somewhat indistinctly used cat. £1,000	200	p46
669	If the catalogue pricing of the lithographs is somewhat daunting we can offer examples of the first, second, fourth and fifth issues SG13, 15, 18, 19 with some condition faults to help you appreciate how wear developed, particularly the background lines – cat. £3,750. SG13 has no mgns but otherwise attractive; SG15 and 18 have three mgns and a portion of the adjoining stamp whilst SG19 suffers from a closed tear	200	p46
670	The pin-perfs were not very successful and sometimes needed scissor assistance, the 4d example here is attractive but the use of scissors has trimmed the top right very close to the design, we pair with two examples of the 1d rose red pin-perf, cat. £192 as cheapest, all used	35	web
671	De La Rue took over the contract in 1862 but the PB stamps did not easily fit their perforating machines. Here we offer the perf 11½ 4d and 6d (SG61, 62) and two examples of the 1d perf 13 (SG64), All good used, cat. £213	40	web
672	The 1914 red cross stamp SG157 in mint unhinged condn, cat. £28	8	
673	Left mgnl stamps of SG178 and 187 showing significant leftward displacement of the overprint into the sheet margins	15	
674	The 1935-7 pictorial set of 9 to 72c in immaculate MINT BLOCKS OF FOUR. They look to us like the original issue and probably are, but as haven't checked all the line perfs, no promise. They obviously rate a full proportion of cat. £300	100	p46

Trinidad contd			
675	The Type 2 numeral cancels on attractive page with 13 stamps each with good to fine strikes – 1, 2, 3, 4, 5, 6, 7, 13, 14, 16, 17, 18, 20 – the '4' of St Juan is Very Scarce, whilst 5, 16 and 18 are merely scarce	200	p46
676	Three different 'TOO LATE' hand stamps struck in black on 6d green single stamps, the 1863 straight line, the 1876 in single ring and an unusual straight line type	45	web
677	A rather worn printed return of estate expenditure is dated 23 February, probably from 1856 and went from San Fernando to P of S. The 1d brick red (SG8) tied to the cover by the '2' of San Fernando was carelessly separated at the left hand side losing a portion of the stamp – scarce	70	p47
678	Dec 10 1859 cover to Portland, Maine franked with 5x 1d carmine pin perf 12½ with crayon 4 in red and weak crowned circle Paid at Trinidad, US Steamship 10 mark and St Thomas b/stamp on reverse. Stamp with sheet mgn at left but unkindly cut at foot and top, filing crease	60	p47
679	An envelope sent registered to Pictou, Nova Scotia on My 26 1874 bears five examples of the 1d perf 12½, which makes up the packet rate of 4d and a local 1d. The front has 'REGISTERED' in red, a manuscript 4 in red and Trinidad Paid d/stamp in red, the back has d/stamps for St Thomas, Halifax and Pictou as well as a red seal with 'Trinidad Colonial Postmaster' impressed – all that is missing is the stamp that paid the registration fee (a 6d green we suppose) removed from the top right – is it possible it was removed because it wasn't red?!	45	p47
680	Entire from Zurcher Schock & Co to Jamaica by RM Steamer, franked with 4d grey perf 12½ sent NO 8 1879 – both colonies joined UPU on 1 April 1877.	30	web
681	Registered cover from Wilson & Co to Paris JA 7 85 sent via London with 4d grey keyplate and 6d green Britannia – SG77 & 110	25	
682	Two single use covers to the USA: firstly a 4d keyplate grey to New Jersey MR 8 (18)88; secondly 2½d Britannia to Massachusetts JY 1 08 sent by steamer 'Crown of Navarre; which belonged to the Crown Steamship Company	15	
683	A pair of unusual incoming covers previously offered with lengthy descriptions in our 2017 sale: firstly a Guatemala 5c PSE sent with 4x 1c Quetzal stamps to P of S in 1898; The second to Princes Town in 1917 is from Venezuela with 25c and 50 c stamp added, the unusual feature is the registration label which is spelt 'Carcaas'	25	
684	Three covers with a 1935 Silver Jubilee thread: 3c SJ single franking to England; 3x 2c SJ to Fortune magazine in NY; philatelic cover to Austria with 2c SJ, 1c Coronation and 3c and 6c view sent 1937	15	
685	Two 19th century incoming items from the USA: first set 4 May 1881 from New Haven, Connecticut with 5c blue, (ex Hogg, Markovits); secondly 2c PSE sent from Fort Bayard, New Mexico from Brig. Gen. Markley to his wife, 2x 2c carmine added and sent in 1891 (ex Crosby)	75	p47
686	A batch of fourteen covers, all bar one KG6, largely to England, USA or Canada, with various frankings; one sent elsewhere is an airmail cover to Curacao where it was censored franked with 6c, 12c, 24c; the other is sent to	25	
687	Cover regd 1936 to Radio Training Assoc. of America in Chicago, labelled and re-regd in Port of Spain, on to Chicago via NY 4x 3c defines equivalent 6d for the journey – you wouldn't expect much animation from that, would you? But we haven't told you yet – it came from SIPARIA which had no regn facilities, so they home-made them up, with a red ink circle, a blue colour wash R and of course their own cds for 7 Oct 36 and a pencil scribble that seems to suggest there was a money order within. Would you believe we cannot recollect seeing a similar improvisation? We improvise a multiplier x8 for a standard type of value, the wax seals on reverse are just as home-made	35	
688	Mixed lot of used postal stationery: QV ½d green wrapper sent by RMS Steamer to Tenerife in 1897; KEVII ½d green wrapper to Meister in Montserrat in 911; 1½d PSC sent to Berlin 1893 with what seems to be a commercial message in German; size F PSRE sent to a bank in Peterborough in 1902 – the four priced to clear	30	
689	The front part of 1½d brown PSRC to Berlin posted on board ship and put in to the post in Bermuda with Paquebot mark. Possibly part of the German goodwill cruise in the Caribbean at the time	20	
690	Three properly used QV 1d carmine PSC: JA 29 1891 to Erfurt, Prussia; OC 6 1892 to London with fine Claxton Bay d/stamp; FE 19 94 to NY	24	
691	You can get the Queens's head SG110 on and off cover in all sorts of guises. When you find it on PSRE in the middle of the 1880's uprating a cover to London, with the not very widely used GPO 20 mm cds you have a complete and far more desirable item than its later roles. The classic period for this type peters out with the lowering of postal rates. The red and two black regn ovals are all London transit on arrival	30	
692	1½d and 2d PS reply cards sent to same philatelic address in Vienna 17 Dec 92	10	
693	The 1885 2d postage due can be found with inverted wmk, as here SGD3w and has a cat. £450 valuation, sadly a small piece has been nibbled off the btm rt corner so valued as a space filler	25	
694	Four ppc's, first undivided back, rest divided: first shows Frederick St, P of S to Birmingham 3 OC 03, 2x ½d; view of Martinique sent to Yonkers SE 25 32; incoming from UK to P of S 1906; Pont Cumana on card to Cheshire 3 AU 17	18

708	A year later(NO 26 94) this envelope was sent regd to London with 4x 1d and ½d – the third 1d stamp shows the 'throat' flaw (row 3 stamp4)	75	p47
709	JU 18 95 env to Minneapolis paid by 2½d ultramarine, a neat example of the reduced UPU rate	30	
710	JA 27 97 cover with ½d dull green and 2x 1d lake making up the rate to Halifax N.S	30	
711	Late use in 1908 of the 4d dull purple and ultramarine on env. to Halifax N.S. paying the registered rate – we treat as philatelic	28	
712	Censored mail from Turks Island is not easy to come by. Here we offer a registered airmail env to Brooklyn sent DE 14 44 with Turks Island Reg label and octagonal crown censor hand stamp D43 in its typically smudged state. The 2s postage paid by SG203 seems excessive	30

720	1887-89 1d rose carmine imperf colour trial on CA paper, part o.g. Charles Freeland's copy sold for £320	150	back
721	Scard to 1884 all used. Two 1d perf 15, then DLR key-types as listed with 3 extra ½d green and one extra 2½d ultramarine. The 1d perf 15 are green and yellow-green, but it helps more to tell you that these are early printings with wide margins and would probably plate to belong to transfers A and B (but we haven't done the exercise). All but one ½d green are kindly cancelled. Another such ½d has a brown A91 (from mixing red and black ink). An odd minor fault in some though most are fine, so would rate cat. at £500 instead of the £670 one could calculate	120	back

724	The Leewards KE 1907-11 set to 1s used on cover from Road Town to Paris sent AP 14 13. With Road Town and St Thomas registration h/stamps and the ½d and 2½d are thought to show the 'broken frame' variety, which is plus, the minus is that the address part of the envelope has been cut off. Virgin Islands contd			
734	Envelope to NY opened and resealed by plain brown tape in Road Town where H1 PASSED/BY CENSOR/V. Is was applied tying the tape to the front of the cover. The sender was on Guana Island which may explain why it was inspected in Road Town, sent by airmail for 1s 1½d (1s and 1½d stamps) we think the date reads DE 5 40	75	
735	1941 Wilson regd cover from Road Town to Birmingham with the registration h/stamps of both Road Toan and St Thomas and on reverse a rare U.S. Seapost date stamp. Franked with pairs of the ½d and 1d Virgin Islands stamps SG69 & 70, thus identifying the first printings of an otherwise philatelic cover	25	
736	This envelope to NY was sent by Airmail on 1 FE 44 for 11d (2x 2½d, 6d), b/stamped Charlotte Amalie next day and then opened and censored in St Lucia and resealed there with PC90 tape OPENED BY EXAMINER C.W.I./5 CL5 – seems to be ex McCann (p.129) who explains the rate as 3d + 10d airmail supplement and 2d underpaid	80	
737	Two 1d PSE showing the Virgin used, the first is fine but to Rev Meister in Montserrat sent 9 Jan 1911 and the second with damaged top left corner sent to St Kitts 23 Jan 1923, both ex Booth and the second one also ex Brooks – these are both the 120 x 94 mm version and are scarce used	60	
738	Two ex Booth PSC cards here. One is a late use (1910) of the 1d carmine QV card sent from Road Town to Meister in Montserrat and for some reason sent via Nevis where it received a smudged 'Missent to Nevis' – one suspects a philatelic reason! The other shows the Virgin 1d card sent in June 1902 to the Barracks in St Thomas, the message is very brief indeed, but these cards are scarce	75	
British Post Offices Abroad			
739	This is the contemporary GB 5/- plate 1, endowed at 2 o'clock with as fine an example of Callao's C38 killer as you are ever likely to see. Before you dig deep into the hip pocket, you need to know that the stamp has been slashed diagonally downward at top right from behind through the stamp sized piece on which it sits, perhaps an overeager packet opener getting careless with a killer knife. It still looks superb and unmissable at our estimate	30	web
Philatelic Literature			
Some of the literature lots are bulky and not all will be carried to the auction room. Room bidders are advised to e-mail any specific literature lots they would wish to view on the day.			
740	The BWISC Bulletin used to come in a much smaller format which won't take up much shelf space, even if you can now look on-line. One of our former members had a seemingly complete run from 1969 to 2000 (No's 60-187) in six small binders.	30	
741	Two Burrus sales with priced realised – 29 Nov 62 included his Barbados, Caymans, Tobago, Turks & Virgins – the second on 26 Nov 63 included his B Guiana, B Honduras and Grenada – fine condn	20	
742	Former President Victor Toeg's Antigua catalogue, signed by him with prices realised as sold by Christie's Robson Lowe 12 Dec 1990	10	
743	1895 priced catalogue by Hollock of the 'Adhesive Postage Stamps of the Obsolete Leeward Islands' – i.e the pre-Federal issues, and 'obsolete' is how it must have looked in 1895	15	
744	The two volumes of the Hind British Empire sale of 1934, one the catalogue, the other the plates – fine condn	30	
745	Charlton Henry Part 1 – the owner of this copy of the 4-day Harmer Rooke sale catalogue (with prices realised) was fortunate enough to attend parts of the sale, so it bears his notes and his or other handler's paw marks. So you get a replay of the first day and can watch cat. quotes go up in puffs of smoke (ex Freeland but he wasn't the original owner, we can promise you). Cover slightly grubby	40	
745	Charlton Henry Part 2 – this is the catalogue for the ensuing four day sale in December 1961, of which Freeland was again an intermediate owner, though it may not have been he who was careless with coffee and the opening inner pages. The rest is pretty clean and anyway we offer it for the info, the illustrations and the prices realised	30	
747	The Hodsell Hurlock sale of Barbados and Trinidad as offered by HR Harmer in 1958, no prices realised	20	
748	Townsend & Howe, nice clean copy of this classic work published by the RPSL in 1970	80
