THE BRITISH CARIBBEAN PHILATELIC JOURNAL

Published bimonthly in the even numbered months. Available only to members of the B.C.P.S.G. with subscription included in the membership fee of \$7.50 per annum in U.S. funds due January 1st. Membership application forms and additional information may be obtained from the Membership Chairman or International Director.

President's Message

Most of you will recall that we have not had a dues increase since 1973. It now seems that the race against the double-digit inflation of the past two-three years has been lost. Upon reviewing Ben's 1976 year-end financial summary, it is painfully obvious that we missed a \$600 deficit only because of some very generous auction donations. Elaine has recently informed me that our printer has raised the cost of Journal production by 16%. In round numbers, this is an additional \$450.00 per year.

Our cost-cutting efforts in several areas have helped, but no really substantial reduction in expenses is possible without resorting to drastic things, such as cutting back to four Journals per year instead of the current six. I do not favor such a move and would rather seek an appropriate increase in dues (subscriptions) to assure six quality Journals per year.

Plans for our October 7-9 meeting in Chicago are developing. We plan to have a hospitality suite at the Palmer House operational on Friday and Saturday. This should provide members with a place to meet, gab, and take a load off show-weary legs. My wife, Joan (a non-collector), has volunteered to assist with some daytime activities for the ladies. Joan is quite familiar with nearby shopping facilities, restaurants, the Art Institute, etc. These activities will be flexible and depend upon group size and interest. We also have plans for several Caribbean area slide presentations and, of course, the Group auction.

Potential exhibitors should note again that the Chicago Philatelic Society show is an APS qualified "national." The jury is free to determine the number and type of awards for qualifying exhibits. This will be the case for both CPS and BCPSG medals. Fred Seifert will add his Caribbean area expertise to the jury of APS accredited judges. Drop me a note if you would like to receive a show exhibit entry form or a hotel rate card. Entries close 1 August 1977. (Paul Larsen, 14 Wilson Court, Park Forest, IL 60466.)

Tobago Keyplate Flaws

by John de Vries

To specialist collectors of Tobago, the Keyplate flaws will possibly be well known. Perhaps a Group member, specialist or no, might be able to help unravel what I consider a mystery concerning one of the flaws.

Based on a requisition from the Crown Agents dated 29 June 1880, De La Rue and Co. had their proposed Tobago Keyplate approved with the word POSTAGE inserted. Separate overprint plates for all the duties were employed. The Keyplate layout for printing the stamps was 60 multiples, 10 horizontal rows of six stamps.

Known varieties include the 'Slash Flaw' (V.1), a stop or period after the 'G' of Tobago (V.2), a broken 'O' in varying states (V.3), and the 'G' of Postage joined to the outer circle (V.4). There is a possible repair of the 'Slash Flaw' (V.1a).

The sheet positions of the flaws mentioned are shown and cross reference between the figures should readily identify Keyplate flaw types with sheet position.

It is thought that Keyplate #1 was used throughout the period 1880-96 and it is when examining sheets and blocks on which the flaws may be found does the 'mystery' begin. I might mention that, apart from my modest items, the following details include the recordings and displays of eminent philatelists, notably the late Dr. R.H. Urwick and Arthur Beach. Although not all stamp values have been seen by me, they may be regarded as authentic and on record.

My 'mystery' concerns the 'Slash Flaw'. The earliest recorded postmark-dated item of this variety was known to exist in the Urwick collection, it being a $2\frac{1}{2}$ d ultramarine dated 19 November 1893. Beach also recorded a later dated copy and a 1d carmine postmark-dated 21 July 1897. Other collections have included unused full sheets and the 'Slash Flaw' has been noted appearing on the $\frac{1}{2}$ d dull green and on certain 1/- values.

-71-

I mention the above items in some detail because in the Urwick and Beach collections are full sheets and identifiable blocks recording the $\frac{1}{2}$ d dull green, $\frac{1}{2}$ d dark green, $2\frac{1}{2}$ d bright blue, 4d grey, and 6d orange brown with the 'Slash Flaw' NOT present.

In some cases, but not all, when the 'Slash Flaw' is not present, an irregularity occurs on the stamp in the V.1 position. It does not yet appear to be known for certain if this irregularity was a precursor to the 'Slash Flaw' or a possible later repair.

The other Keyplate flaws I mention may be considered as of a minor nature, but they have certainly contributed to confirming second settings of the stamps surcharged.

EKD 21 FEB 1975 LKD 11 MAR 1976

RC 29 Double Ring with Inner Semi-Circles REGISTERED/KINGSTON

A 37 mm rubber double ring dater with inner semicircles. Serif 2.5 mm capital lettering with "REGIS-TERED" around the top and "KINGSTON" at the bottom. Single line date in center including four digit year; no side asterisks. Violet ink.

EKD 22 SEP 1975 LKD 15 JAN 1976

It should be noted that practically all the types designated RC22 to RC28 inclusive have been recorded in regular postal service and, in fact, were possibly obtained for that purpose. Nevertheless, they were the only markings employed on registered items mailed from Kingston, at least on the dates shown, and they are thus bonafide registration markings.

(to be continued)

INLAND ISLAND, BERMUDA

INLAND ISLAND appears in the 19 May 1887 CDS canceling a Bermuda $1\frac{1}{2}$ d carmine postal card as illustrated on the cover of this BCPJournal. The cancellation is Ludington Type K3 consisting of the Bermuda "3" killer and accompanying CDS.

The CDS inscription should have read IRELAND ISLAND, but was sent out from England with the inscription INLAND ISLAND in error. The duplex marking was put into use on the island and was not replaced by a corrected version.

Recorded dates of usage range from 11 June 1879 to 17 April 1889. Can anyone show evidence of a longer usage life?

SILVER JUBILEE VARIETIES ----

The Bermuda 5¢, Cayman Islands 8¢ and 30¢, and St. Lucia 20¢ Silver Jubilee stamps have been reported with inverted watermarks, while the \$1 Barbados has been found with blanket offset and the Cayman Islands 30¢ with a major color shift.

The Posts of St. Lucia

by Geoffrey G. Ritchie

-78-

The following is a continuation of Section 8, Specimen Stamps and Stationery, which appeared in the February 1977 BCPJournal.

CHECK LIST OF ST. LUCIA "SPECIMEN" POSTAL STATIONERY

Up to and including the 1923 items, the standard De La Rue SPECIMEN overprint for stationery was employed. This had thick serif letters and ran diagonally to the right, either upwards (Type S1) or downwards (Type S2). On some items, e.g., wrappers, the overprint was at a steeper angle.

TYPE S2

After 1923 De La Rue's style varied, and a double-lined overprint was used for the ordinary envelopes of 1936 (Type S3). The typeface used on the first King George VI registered envelopes is not known, but is assumed to be the same as on the second issue, where a neat engraved SPECIMEN was applied in non-serif letters (Type S4). As will be seen, some of the stationery SPECIMENS are tentative, and confirmation, or otherwise, would be welcome. The number in brackets is the Higgins and Gage number of the normal item.

Only the second of these three SPECIMEN envelopes has been seen, but the others should exist.

As marking ceased in 1948, no later issues can exist as UPU SPECIMENS. However, an illustration (Type P1) is shown of what is presumed to be a privately prepared issue based on an "officially approved" aerogram form (printer's number 51.5839). This is an unfranked aerogram which, at the time of the coronation of Queen Elizabeth, was overprinted towards the left with the arms of St. Lucia surmounted by Crown E II R, all in magenta. On the item with SPECIMEN, which is in thick non-serif letters running diagonally upwards in green, the armorial device is in a slightly different shade of dull red. Envelopes also exist with this device, and there may be items for other West Indian territories. Any information on these would be gratefully received.

YOUR OPINION, PLEASE

by Hyman M. Nathanson

I recently acquired an unused copy of Barbados S.G. No. 86b (Penny on 5/- provisional — an unsevered pair of first and third types) Royal certificate and all. This has led me to investigate this issue and several questions and theories have resulted.

In the Bacon and Napier handbook, the authors express the opinion that this combination probably occurred once in the setting of the surcharge, but, frankly, I do not think their reasons very convincing. A similar opinion was expressed in 1933 in the "London Philatelist" by Stephenson basing his statement on a plating of the surcharge. He stated that he was reasonably satisfied that this plating was accurate, however he gave no reasons for this belief.

I know the item is rare, but it does not seem to me to be as rare as believed. There are two pairs in the Royal collection, both used, two pairs in the Hurlock collection, one unused, and my copy which was in the Wheeler collection. This seems rather a high percentage of survivals if 48 (the number of sheets surcharged) was the original number of copies which could have existed. Does any member have any ideas on this?

Many years ago, Sir John Wilson suggested that the provisionals might be plated by a study of the perforations, but it has occurred to me that, as another approach, one might use the watermark lines around the edges of the sheets as a starting point. It is not uncommon to find these lines misplaced on the actual marginal stamps of the De La Rue printings and I do, in fact, have a copy of the provisional showing this "sheet-edge watermark." It seems to me that this procedure might be useful to check the marginal copies against the theoretical plating by Stephenson.

I would very much appreciate your comments and views on this.

NEW BCPSG LIBRARY ADDITIONS ----

Recent donations to the BCPSG Library are "British Honduras" by B.W.H. Poole and "British Honduras - Local Surcharges of January 1888" by W. Dorning Beckton, both donated by Howard Barnstone; "St. Vincent 1861-81" by Minoru Ishihara (written entirely in Japanese), donated by the author; "The Birmingham Postmarks of Jamaica" by Thomas Foster, donated by the author; and the "West Indian Civil Censorship Devices in World War II" edited by Dr. Geoffrey Ritchie and published by the Roses Caribbean Philatelic Society, donated by the Roses.

All books in the library are for your use. If you wish to borrow one or more, contact Robert P. Lovett, BCPSG Librarian, R.D. No. 1, Newtown, PA 18940, USA. Please remember that the only charge for this service is the payment of postage for BOTH directions. So, don't forget to reimburse Lovett for the postage he uses.

From the Editor's Desk ---

A milestone is fast approaching for the British Caribbean Philatelic Study Group. Volume 1, Number 1, of the BCPJ was published in May 1961 under the "temporary" editorship of Al Johnson. This "temporary" post was held by Al for more than six years until Fred Seifert "temporarily" took over the post in September 1967. In February 1978 the 100th issue of the Journal will be published.

Plans for this special issue are now being formulated. The number of pages will be increased substantially. Your editor's goal is to have every island in the Group's sphere of interest covered by an article. This is all dependent on your co-operation by submitting such articles. Islands to be covered are Anguilla, Antigua, Bahamas, Barbados, Barbuda, Belize, Bermuda, British Guiana, British Honduras, British Virgin Islands, Cayman Islands, Dominica, Grenada, Guyana, Jamaica, Leeward Islands, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent, Tobago, Trinidad, Turks Island, Turks and Caicos.

To further stimulate interest in this special issue, we have the pleasure to announce a literature competition for the best article submitted for the 100th issue. A BCPSG medal will be awarded to the winner. The time to start on your article is now...early submitting of such articles will greatly assist your editor. As we hope to receive too many articles for this specific issue, your editor reserves the right to use what she chooses for the February Journal and will publish other articles as Journal space permits. However, all articles earmarked "for the 100th issue" will be judged for the literature award regardless of when that article is published. The panel of judges has not yet been chosen, but will be announced in a future issue. Due to the number of islands involved, we must limit the size of articles submitted. Please do not submit articles longer than four pages (double-spaced typewritten) including illustrations. Articles of shorter length are preferred. If you wish to submit handwritten articles (legible), please keep in mind the length involved. This is an excellent opportunity to win a BCPSG medal, especially if you are not an exhibitor and had no hopes of ever attaining one of our coveted medals.

Now is the time, while this editorial and the idea is fresh in your memory, to sit down and write the article. Deadline for articles to be submitted for the February issue is 1 November 1977. So don't delay. Help your editor to make this issue worthy of the special occasion.

Auction Manager Bob Topaz has asked us to thank members for their response to the request for auction lots. Please do not send any more lots for the 1977 auction (keep them for our 1978 auction) unless you wish to submit donation lots. We have very few donation lots included in this auction. Particulars on how overseas members can obtain the Part 2 auction listing (which will appear in the August Journal) via Printed Matter Air Mail can be found at the end of the auction listing appearing in this issue.

STEAMSHIP COMPANIES HANDBOOK ----

It has been noted in the press that the first part of a series of handbooks on stamps of the steamship companies throughout the world was slated for publication in January 1977. This first part covers "The Private Ship Letter Stamps of the Caribbean," by S. Ringstrom and H.E. Tester.

Information on these handbooks may be obtained from S. Ringstrom, Box 24, S-231 01 Trelleborg 1, Sweden. Please mention that you learned of this handbook through the BCPJ.

-83-A PROVISIONAL CAICOS HANDSTAMP

by Dr. Peter P. McCann

In October 1976, on my way to TORTOPEX in Tortola, BVI, I stopped in Barbados where I stayed with Jayne and Willy Hansen, old friends. Hansen, an ardent stamp collector, is head of the Crown Agents Office for the Caribbean region. One of the philatelic items he gave me caused me to have a sudden thrill of excitement.

Hansen told me that this particular cover was given to him by the Postmaster of the Turks and Caicos Islands as a memento of the opening of the new Providenciales Island branch office. It seems that when the branch office was ready to open, the new cancellation device had not yet arrived from the UK. As a result, the postmaster took a Grand Turk handstamp with him for provisional use and had a small two-line rubber handstamp, reading PROVIDENCIALES/CAICOS ISLANDS, made up locally. This latter handstamp was to be applied on the envelope next to, but not on, the stamp(s). Only about 25-30 covers were done on the opening day, 30 January 1975, and were given as souvenirs to those present at the ceremony.

After returning home to Strasbourg, I wrote to the postmaster recounting the details Hansen had given me and asking specific questions about the "Provo" handstamp and the Grand Turk double-ring canceler. This Grand Turk marking, by the way, was exactly the same cancellation that Mike Wilson reported in the October 1976 BCPJ and which had been briefly described by J.F. Challis in the March 1964 BWISC Bulletin No. 40. I recently received an answer from the postmaster stating that:

"The hand stamp of Grand Turk used on that day is one of the regular stamps used daily, it only meant that Grand Turk were short of a date stamp. To be truthful I do not know when the Grand Turk stamps were imported."

He indicates that the Grand Turk handstamp was not a special spare canceler kept for such use as temporarily at Providenciales, but was simply one of the normal post office stamps that he happened to take with him. My own analysis is that this may not be the case, because in my own experience, and as Mike Wilson has pointed out, this handstamp has been seen very rarely. I tend to think that, indeed, this handstamp was resting in a drawer in the GPO, not being regularly used, and was picked up and taken to Providenciales because of this.

The postmaster also stated:

"No record was kept of the first day the Provo stamp was used but presumably it was before September."

Gus McVicker reported the Provo "Blue Hills-Caicos Islands" canceler used 23 September 1975 in the February 1976 BCPJ. It was probably in use before this.

Finally, the postmaster says:

"The reason for the Provo stamp on the side was to identify the place where the Grand Turk stamp was used. This was done <u>until</u> (my emphasis) the Provo stamp arrived."

The significance of this is quite clear. The handstamp was not only used on the first day of opening special covers, but on all Provo mail until the first use of the new canceler, i.e., sometime between January and September 1975. Thus, somewhere there are a number of non-philatelic commercial covers with this marking waiting to be found.

This may, indeed, be one of the (if not the) rarest Turks & Caicos modern postal markings.

Early Antigua Slogans and Cachets

by Alex Thomson

The December 1975 section of the Antigua Monograph on canceling machine postmarks and George Bowman's previous article in the June 1975 Journal has prompted me to record what little information I have on the special handstamps used in Antigua during the 1920's and 1930's.

Like Bowman, the earliest slogan cancellation I have in my collection is on a cover to the USA on which a block of four 3d stamps are canceled by a single-circle St. John's CDS dated AP 30 1928 measuring 25 mm in diameter. The cover carries the slogan YOU SHOULD VISIT/ ANTIGUA/THE IDEAL SUMMER RESORT in a rectangular box 63 mm x 25 mm. The unusual feature of the slogan is that it is in violet, not black, ink which seems to suggest that it may be akin to the temporary rubber stamps sometimes used in Jamaica when new sub-post offices were opened. By 18 July 1928, this slogan was being used in black ink, as a subsequent cover in my collection proves.

On the reverse of the cover, there is a double concentric ellipse, again in violet ink, with major and minor axes of 50 mm x 34 mm and 37 mm x 21 mm, respectively. In the center of the

-84-

ellipse is a Crown, while in the space between the ellipses are the words POST OFFICE at the top and ANTIGUA at the bottom separated by two asterisks.

The year 1932 was the tercentenary of the settlement of Antigua by Sir Thomas Warner and his pioneers. A new slogan was issued in that year in which TERCENTENARY YEAR/OF AN-TIGUA/(THE IDEAL HEALTH RESORT) was contained in a rectangle 37 mm x 11.5 mm. The rectangle was three-sided, the right-hand side being open.

This slogan is known to have been used in conjunction with two different types of CDS. The first one in my collection is a 27/18 mm diameter double-circle dated 31 May 1932. Between the two circles are the words ST. JOHN'S at the top and ANTIGUA at the bottom with a dot separating each word. The second cancellation is a 24 mm diameter single-circle cancellation dated JU 1 32 in which ST JOHN'S appears at the top and ANTIGUA, B.W.I. at the bottom. Envelopes posted on 26 January 1933 received the special cachet LAST DAY OF/TERCENTEN-ARY/ISSUE. The letters used were 2.25 mm high.

LAST DAY OF	LAST DAY OF
TERCENTENARY	JUBILEE ISSUE
ISSUE	

As with the tercentenary year, letters posted on 31 December 1935 received a special handstruck cachet LAST DAY OF/JUBILEE ISSUE. The height of the letters was also 2.25 mm.

In 1933, a new slogan was introduced in which the words YOU SHOULD VISIT/ANTIGUA/THE IDEAL/SUMMER RESORT was contained in a rectangle 33.5 mm long x 30 mm high. The right-hand side of the rectangle, both at the top and the bottom, has ears or tabs which extend the overall length of these sides to 38 mm. The cover in my collection carries a double-circle cancellation 27/18 mm diameter dated AP 11 1933.

A minor variation to this last slogan appears to have been in use in 1935. This combined slogan and datestamp is a rectangle 64 mm $\log x 29$ mm high. The rectangle is cut into two with the slogan part appearing in the left-hand 33 mm long part and the 27 mm single-circle datestamp in the 31 mm long part. The CDS is dated MAR 19 1935.

No doubt many members will be able to add further particulars to the above precis.

ST. VINCENT NEWS ----

St. Vincent Philatelic Services advises us that it was not until supplies of the souvenir sheets for the Silver Jubilee issue arrived in St. Vincent that it was found that the perforation measurements of the sheets $(14\frac{1}{2})$ differed from those of the basic stamps $(13\frac{1}{2})$. It was also discovered after many orders had been filled that the majority of the 45¢, 75¢, and \$1 basic stamps had reversed watermarks (i.e., with Crownfacing east when viewed from the front). Approximately 70% were reversed and 30% normal.

GUTTER-PAIRS IN DEMAND ----

'Watchman' in the 6 January issue of "Stamp Collecting" advises that there is a growing demand for gutter-pairs. He notes that the June 1976 Bermuda Tall Ships stamps, normally printed in sheets of 25, has also turned up in double-panes of 50 stamps with gutters. He suggests putting away a gutter-pair or blocks of four with gutters of this issue.

BITS & PIECES from HERE & THERE

<u>ANTIGUA</u> - In "Bits & Pieces" in the October 1976 BCPJ Bill Cornell reported that Antigua postal meter RN 002 was being used by the Royal Bank of Canada. Now, Gus McVicker sends a cover with an Antigua meter numbered P.B.002 used by the Canadian Imperial Bank of Commerce. Although the basic number is the same, two different machines are involved. The RN 002 cover was dated 10 May 1976, while the Pitney Bowes 002 is dated 17 September 1976.

<u>BARBADOS</u> - Hyman Nathanson specializes in the Brittania types of Barbados and has a problem relating to re-entries on the "no value expressed" and the "value expressed" plates. He has a handful of stamps which show re-entries, mainly in the name label, and two 1/- stamps showing repaired damage at the top and bottom left corners, respectively, but, so far he has been unable to find any literature on this aspect (and the same goes for the Trinidad Britannias). Can any member help him?

A new purple registry handstamp is noted from St. Philip by Tom Giraldi. The EDK noted by him is 2 MAR 77. He also reports a numberal 3 above the date in the St. Philip CDS.

St. Lucia Jaycees Be A Blood Donor

Visit St. Vincent for Cannival June 25_July 5, 1977

<u>BELIZE</u> - In the February 1976 Journal Eric King reported the official renaming of Stann Creek Town to Dangriga, however, the Stann Creek Town CDS was being used as late as 3 AU 76 as reported by Tom Giraldi in the February 1977 Journal. Now, Tom reports a cover dated 16 JA 77 which carries a Birmingham CDS with the name Dangriga around the top and Belize at the bottom. Does anyone know when this CDS was first implemented?

Giraldi also reports a slogan previously unreported. The slogan reads BELIZE CELEBRATES/ NATIONAL DAY/SEPTEMBER 10 and is seen used on a 6 September 76 cover.

<u>JAMAICA</u> - Bill Ashley reports that the post office at Border, Jamaica, was so named because the border between two parishes runs directly through the center of town. The post-

-90-

mistress wields a TRD and reports that postal authorities showed up a couple of years ago and took the regular mark away with them with no explanation given. According to Ashley, he has a single-ring-with-asterisk mark dated MY 28 71, which definitely showed signs of deterioration. The "BOR" portion of Border was quite defective.

<u>ST. KITTS</u> - A new purple registry handstamp reading REGISTERED/G. P.O./No._____ is reported by Tom Giraldi. The EDK noted by him is 18 October 76.

<u>ST. LUCIA</u> - Guy Kilburn advises that a cachet ST. LUCIA JAYCEES/BE A BLOOD DONOR was first used on mail on or about 1 April and was still in use 9 April.

William Mittendorff has a copy of St. Lucia Scott #25 (S.G. #9) used, although the catalogs state that the item was prepared for use but not issued. Can anyone give him information on this item in used condition?

Ben Ramkissoon reports a new St. Lucia 30¢ air letter issued on 7 March 1977. It is printed in dark green on light blue and pictures the Pitons of St. Lucia on the front and a map on the back.

ST. VINCENT - A handstamped cachet reading VISIT ST. VINCENT FOR CARNIVAL/JUNE 25-JULY 5, 1977 is reported on a cover used by the St. Vincent Philatelic Services dated 21 AP 77.

<u>TRINIDAD & TOBAGO</u> - William Mittendorff has a copy of Scott number MR13 in used condition and with inverted overprint. For members with Stanley Gibbons catalog this is the 1918 1 penny scarlet with type 26 War Tax overprint. Mittendorff would like any information members may have on this stamp.

An error inadvertently crept into the "Bits & Pieces" item in the April issue which related to the Trinidad Red Cross Society. Gordon Macdougall advises your editor that she mated Mrs. Hobson to the wrong gentleman! Mrs. Hobson of San Fernando was married to an attorney, while the wife of the Principal of Queens Royal College was Mrs. Burslem of Port-of-Spain.

Your editor has received a card from Bruce Walker bearing a special cancellation reading TRINIPEX BO around the top and TOBAGO around the bottom; the center bears the date 17 A FR 77. Bruce traveled from Aberdeen, Scotland, to Trinidad for the exhibition being held by the Trinidad Philatelic Society. He reports that a group went over to Tobago for a weekend and took the display with them. He further reports there was also a special cancellation used in Port-of-Spain, Trinidad, for the exhibition there.

GUYANA NEWS & NOTES ----

A new printing of the Guyana \$1 definitive was released by the Crown Agents on 17 January of this year. The 3 February 1977 issue of "Stamp Collecting" (UK) reports that this value was previously inclined to a rather deep yellow; however, this latest is much paler and readily distinguishable from the printing released.

There is a footnote in the S.G. Elizabethan catalog after Guyana #'s F1-10 which states that the postal use of these stamps from 2 November 1975 to 30 June 1976 was "an act of grace." P.A. Driffield, "Stamp Collecting's" Guyana correspondent, states, in the 17 February issue, that an official notice issued by the Ministry of Finance authorized the postal usage under the Stamp Duties (Management) Act. He reports that the 5¢ Annatto Tree definitive postage stamp was overprinted REVENUE ONLY in red and without the upper and lower horizontal bars of the S.G. Type F1 overprint. These 5¢ stamps are specifically for revenue purposes only.

Personal Mention

PETER McCANN and CHARLES FREELAND had a long six-hour BWI gabfest in February. Then, in March, Peter journeyed from France to England for a Falkland Island Study Group Weekend and spent a day with MIKE WILSON. He reports they had a great time looking at Turks & Caicos covers and stamps.

STEPHEN SUGARMAN exhibited for the first time in the British Philatelic Exhibition and was awarded a Silver Gilt medal for his collection of Early Postal History, Stamps and Proofs of Dominica. He is hoping to attend Bermupex 77 and is planning on exhibiting his Dominica there.

JACK ARNELL has been named Chairman of the Bermuda Stamp Design Advisory Committee, which reports to the Minister of Finance, under whom the post office operates. He reports it is an interesting, but time-consuming, task.

The BCPSG Silver medal was awarded to CON-RAD LATTO at the Stampex National Exhibition for his entry of the First Issue of St. Lucia. AL BRANSTON reports that it was a fine exhibit which was well balanced with nice examples both on and off cover.

PAUL and JOAN LARSEN hosted STAN and ELAINE DURNIN over a weekend in April and were joined by BEN and CONNIE RAMKISS-OON Saturday evening for a sumptuous meal prepared by Joan. Much of the topic of conversation centered on the forthcoming Group annual meeting in Chicago.

The Group's Gold medal has been offered to AMPHILEX, an exhibition in the Netherlands.

PAUL LARSEN has named AL BRANSTON chairman of arrangements for the 1980 Group meeting to be held in London, England.

WILLIAM MITTENDORFF has a cover which bears either British Honduras Scott #20a or 22a. He wants to know how one can determine the watermark of a stamp when it is on cover, especially when the cancellation reveals nothing identifiable.

'Watchman,' in the 3 February 1977 issue of "Stamp Collecting" (UK), writes "Now there is an ingenious gadget on the market which allows you to "see" watermarks on covers." However, he fails to mention any details.

Can any member come to the aid of William, and perhaps quite a few others who are faced with this problem? Does any UK member have knowledge of the "gadget" 'Watchman' mentions? Send your information to the editor (address on front cover).
