DESCRIPTION AND VALUATION OF LOTS:

We try not to get carried away by the enthusiasm of a seller, or the tendency of less specialised auctions to value too low or too high. Our estimates aim to be fair to both buyer and seller, and often give a guide to condition and quality.

A lot of trouble is taken over description, and words such as 'rare' or 'scarce' are not used lightly.

In ascending order we describe condition as 'poor', 'fair', 'good', 'fine', 'very fine', and so on. Defects are usually noted; where nothing is said about the condition we consider the standard of the item to be broadly acceptable, but there are likely to be occasional faults amongst a group of stamps or covers; and when the interest lies in the postal markings, less attention is paid to the condition of a stamp or cover. Scans are generally provided, either in the catalogue or on the website, for all individual lots where the estimate is £60 or more. Any scanned image is deemed to be part of the description.

Where stamps have not been used, 'unused' will mean little or no gum, 'mint' means – apparently unmounted, and descriptions in between speak for themselves; however, 'm' applied to a group of stamps indicates only that those stamps have not, in our opinion, been used.

We do our best to describe lots accurately and the descriptions reflect our opinion. Where a lot is rejected on grounds that are considered appropriate, the purchase price will be repaid. Beyond that the Society cannot accept liability of any kind arising out of the auction.

There are numerous lots to which no describer can do justice and those who can do so are urged to attend the auction and view before bidding.

If you have any questions regarding lot descriptions / valuations, then please contact Simon Richards (0044 (0) 771 368 4263) or email to simon@sidebell.co.uk or auction@wipsg.org.

CORRECTIONS: After publication, description errors / clarifications are required at times, these will be placed on the web site, please check them out.

Additional facilities. It is likely that others will be available on occasions or at some periods to deal with enquiries from those minded to participate in the auction. Details will be posted and updated as far as practicable on the website which members should always check before launching an enquiry.

VIEWING:

A period (11:30 to 13:00) will be available for viewing before the Auction.

For any special facilities please contact Simon Richards as above.

IMAGES/SCANS:

Images are not true size, they have been adjusted to fit on pages.

Under the 'pic' column 'front' means front cover, 'back' means back cover, 'inside back' means inside the back cover of the main catalogue. 'p99' etc, refers to the photo plates catalogue. Check the website <https://wipsg.org/auction> for full images of all items.

EXTENSIONS:

Should you require an extension to submit an item for expertising please inform when making the bid, and at least 48 hours before the auction. Expertising fees, for good or bad results, are to be borne by the successful bidder.

BID VALUES:

Lots cannot normally be sold below 80% of estimate, and may be reserved up to, but not normally beyond, full estimate (indicated by a 'R' after the estimate). Also, the seller may compete in the auction. Postal bids are executed as economically as the competition allows.

Bids are in sterling with normal rises of £1 to £40; £2 to £60; £5 to £120; £10 to £300; £20 to £500; four increments per £100 to £1,000; by £50 to £1500; by £100 to £2,000, then at auctioneer's discretion. Lots are sold at about 200 an hour.

We try to ensure absolute fair play between postal bidders and participants in person. In case of misunderstanding or dispute, the auctioneer may re-open the bidding; otherwise the fall of the hammer closes the sale. Commission from sellers is 10%. The hammer price is what the buyer pays (no buyers premium).

WIPSG Auction #54 - Saturday 3rd October 2026

Where tied bids are received the earliest to arrive receives priority, BUY bids are respectfully declined. The bids must be received by 2pm BST on Friday 2nd October 2026. Within that timescale the bidder is allowed to amend the bid sheet.

Some facilities may be available to those attending the sale and themselves in the auction room, or bidding live through a proxy still in the room. The proxy must be a seated live bidder. Members engaged in recording, distributing lots, or equivalent admin. activities are not available as proxies and the auction will not be interrupted to receive written bids at breaks in the sale.

The facilities include:--

- Updating or amendment of auction descriptions and prices

- The possible addition of lots available only in the Room

- The offer at fixed prices of additional literature items. These, if on offer, are intended to be listed, should be signed and time-dated by purchaser, to be handed to the auctioneer when the sale concludes. His decision as to priorities, and availability of any item for collection will be final.

Subject to contingencies, we intend to conclude the auction at or before 5:30 pm, even if the full number of lots listed in the catalogue as listed have not been sold under the hammer. In that event written bids may be left to be dealt with post-auction as absent bids. Any decision of the auctioneer as to who is the purchaser of any item on offer, and at what price, if made in the Room or otherwise on the day of the sale, shall not be open to subsequent review.

BID SUBMISSION:

All bids received prior to the cut-off will be acknowledged, provided you leave an e-mail (for preference) or telephone contact number. If your bids have not been acknowledged it may mean they haven't been received.

All bid forms by post should be returned to Simon Richards, Heathercombe House, Drayton St Leonard, Wallingford, Oxon OX10 7BG, United Kingdom.

All other bids should be submitted by email either to simon@sidebell.co.uk or to auction@wipsg.org placing 'WIPSG AUCTION 2026' in the subject bar, up to 14:00 BST on Friday 2 October 2026.

As an emergency concession to those whose local time from their point of communication is six hours or more behind GMT, for the purposes only of correcting or modifying a pre-existing bid on one or more lots a telephone attempt may be made to Simon Richards +44 (0)771 368 4263, up to 09:00 BST on the day of sale. No guarantee can be given that any emergency call of this nature can be acted upon. We will simply consider what, if anything can be done in the circumstances prevailing on the day of the sale. Any last-minute attempt to submit additional bids will be disregarded but if any such attempted bids are confirmed in writing (including email) within three days of the auction, they will be treated as offers (backdated to the time of call) to buy any unsold lots listed at their prevailing offer price.

Telephone bidding, if available this year, will be restricted to lots with an estimate of £150 or above.

Requests can be made by email to auction@wipsg.org and should be subject headed "Telephone Bidding" and should be made sufficiently in advance for arrangements to be finalised. A fee will be incurred. As an alternative, the auctioneer may allow a non-member whose authority and credentials have been duly established to bid as a proxy for the absent member. Any participation by such a proxy will be binding in all circumstances on the absent bidder (look out for website updates).

All bids are dealt with in order of receipt, and the earlier of two equal bids takes precedence; but where the bidder imposes an overall limit on his or her spending, priority may be affected by the need to respect that limit.

PAYMENT

Payment should be made in GB £ unless an exception has been agreed in advance.

Payments in any other mode or currency must be agreed and authorised by Simon Richards who will be as accommodating as circumstances allow. Paypal is available by arrangement, the purchaser to pay the fees.

Contact Simon at simon@sidebell.co.uk for details before sending money.

Danish West Indies			
196	Unused b/w ppc street scene we'd date around 1910 or a little before. If the two locals standing with huge loads on their heads are posed, the rest are certainly not. Well-drained, well-swept, well-ordered, and stress free, where else in the Caribbean could this be? It's Denmark overseas, a St Thomas view. The crested flag is included here in a silk form the 20th series by BDV cigarettes (no. 74), but this has not had stress-free existence	6	web

202	The KGV Mult. Script CA basic set of pleasing appearance, hinged mint, 22 stamps, SG112-134, so omitting the various shades, particularly of the 2½d blue, cat. £160	35	web
203	Coil stamps have no separate listing in Grenada, so you might not anticipate the healthy total of £83 that applies to two strips of five, each with coil-join, in yellow-green and blue-green. That's a credible level with the two extra features	25	web
204	Three Grenada items: JU 27 95 registered cover to London with first keyplate ½d and 4d just before they were replaced by the second issue; NO 29 04 registered to NY with KE7 2d and 2½d paying the fare, SG59 not easy on cover; final item a used DLR 1d PSC but sent to Vienna without message in 1910	20	web
205	We pair two items showing the correct use of the 1906 issue: an attractive Swiss ppc posted on Board HMS Indefatigable on 2 June 1907 to a lady in Southampton with 1d fare (SG78); secondly a printed envelope to Rochester, NY sent for 2½d (SG80), small part of corner of envelope cut on opening	10	web
206	Two regd covers to England: the normal size earlier one surprised us by travelling uncensored to a clergyman in Wallington, Surrey on 27 JU 18, receiving full GPO markings front and back, carriage paid by a block of four London-printed War Stamps and hooded red London arrival. The war over in the Atlantic therefore, the end in France not yet in sight. The later cover is quite a twee small size, to a Fleet St address, a normal and harmonious 3d and 1½d sharing the cost of travel. We wouldn't want you to pay the combined £105 price once marked on these two for retail sale	30	web

211	Dateline 'Greenwall', St David's, 12th May 1798 and clearly inscribed per packet the opening lines mention that the Captain of the Portland packet gave the writer doubt as to the safety of an earlier letter, so you get a copy of those contents dated 20th November 1797. Fine straight line 'JAMAICA' on back and seemingly sent at a rate of 5/8 to London. Further research could be rewarding.	75	p04
In the June 2008 issue of the BWISC Bulletin (see our website) our vendor wrote a four page article on the use of naval brigs as substitutes for the regular packets which were disrupted by the Napoleonic wars. They can be distinguished from ship letters carried by a naval vessel by the rate. These letters are scarce and the next five lots are written up			
212	Duplicate letter datelined Jamaica 25th April 1798 to London rated 3/4 double rate and inscribed 'p HM Cutter William Pitt'. London arrival d/stamp 3 July 98.	75	back
213	The next instance was in July 1800 when this letter inscribed 'P Sprightly cutter' was sent to London. The letter is datelined St Mary's Jamaica July 16th 1800. The reverse has a poor strike of the Jamaica Freeling datestamp of 3 AUG 1800 and a fine London arrival d/stamp of SEP 21 1800.	100	back
214	Inscribed 'Pr H M Cutter Sprightly' entire to Liverpool with better strike of the Freeling datestamp 3 AUG 1800 and London arrival SEP 21 1800. This neat entire has a good strike of the straight line FALMOUTH on the reverse	120	back
215	In August 1810 HM Brig Crocus was pressed into the packet service and took this letter to London for 2/1. The letter opened up to show an average strike of a Jamaica fleuron 21 AUG. Foster only lists one example carried by this service and this may be it, also ex L P Voller. London arrival 21 OC 1810 and with £2 4 10 inscribed in two places, we leave to you to decipher	100	back

Lot	Description	Est £	
216	The final cover in this group is dated 23 April 1813 and shows some signs of wear, optimistically inscribed 'single' it was charged 4/4 and the inscription 'By Pelican Sloop of War'; Foster reported no known letters on this vessel, the commander of which was paid 50 guineas by the Post Office as a reward for bringing the mail through following a famous engagement with the American brig Argus. Weak Jamaica fleuron on reverse along with 4 JU 1813 London arrival. Value is added by a faint 'MORANT BAY/JA' also on the reverse	120	back
217	Port Royal, 13th October 1804 is the dateline here with London arrival d/stamp of NOV 20 1804 on reverse together with a weak Freeling style d/stamp 'JAMAICA/13 OC 1804' packet letter to North Britain	75	p04

221	6 Feb 1839 EL to the Aberdeen area sent for 2s 6d by the packet with ½ applied on front for wheel tax. The reverse has a poor to fair strike of the Kingston Jamaica datestamp in circle, but the date can't be read, whilst the arrival d/ stamp of MAR 18 1839 certainly can. Postal reform was shortly to make such correspondence much cheaper	30	web

227	Green Devon Album containing the definitive stamps of Jamaica, generally used to 1979 and the commems up to end KG6. Though there are few pines, the strength is in the shades. QV wmk CC set to 2s, CA set to 5s, 1905 Arms set to 5s, 1912 set to 5s, 1919 pictorials incomplete, but includes 3s, 1921 pictorials lack 10s, but three shades of the 5s. Cat. £800 plus and a fine start if you want to study further	120	web
228	Black Devon album attractively written up to show many of the QEII commemoratives used. The order of the pages a little hard to follow, but starts at the Coronation and seems fairly complete to the late 1960's. Carries on to about 1983 but the coverage is more patchy – over 200 different stamps	25	web
The Paul Hancock collection of Numeral Postmarks: we are privileged to present the third instalment of this outstanding collection of numeral postmarks which contains many very rare items. Paul was always looking to upgrade the quality of his strikes, and the result is evident in the quality on offer.			
229	When the A01 numeral was first issued in 1858 three more or less identical brass handstamps were sent to Kingston. On this attractive page we offer 15 pines cancelled with these type 'A' instruments, in use until 1863. The full set is here, just one 2d and 3d, but with additional shades of the 1d, 4d, 6d and 1s. Cat. £360+	80	p04
230	In 1863 type 'A' A01 was replaced by a new type 'D' device of the same design but with much thicker bars and remained in use until 1875. Here we offer the pine wmk set with two additional shades of the 1s, cat.£243	60	p05
231	Finding type 'D' A01 on pines is not hard, but on Crown CC wmk stamps much more challenging – indeed Topaz did not record on a 2d, but here it is – a little blurry, but the wmk is clear – how to value a £1 stamp with an unrecorded postmark? Low and let the market decide?	25	p05
232	What is more commonly found in this era is the type 'E' A01 device with its taller, narrower 'A' – so here we offer a pine set on a page, that is minus the 3d, but with additional 1d, 6d and 2 x 1s – cat. £250+, with it 18 stamps wmk CC covering all values and shades to 1s with the same type 'E' cancellation	60	p04

234	Stunning A27 on 1d official SGO4 very rare	20	p05
235	A28 type M on 1d, 2d and 4d with CA wmk – the 1d and 4d both difficult and these are fine strikes – SG17, 19 and 22	18	p06
236	A32 Buff Bay. Three pages of good to fine strikes, many ex-Winand – Pines set to 1s (no 4d), Crown CC to 1s complete, Crown CA set to 4d lacks 1d blue and 3d, the three keyplates and three different postal fiscals	60	p05

240	A39 Flint River on SG 7 rare, bold strike but with only one leg of the 'A'	25	p05
241	We can offer a blurred but full strike of A39 on the 6d SG12 ex Winand	20	p05
242	A39 on 2d slate, fine strike ex Hemmings	20	p05

A rather different collection of postmarks is offered in the next nine lots. On numerous pages that must have filled at least ten binders we offer postmarks on stamps, pieces, postcards and covers. We note one going back to 1837 but mainly this material is of the mid-Elizabethan era. A very sound start to this fascinating area. You will need a copy of Horry's postmark encyclopaedia to assist. Each lot is quite heavy and postage costs could be substantial, particularly overseas

432	Leeward Islands used in St Kitts: Sandy Point SP duplex cancels on ½d QV (x2) plus ½d KEVII. One QV cancel faint but the others clear.	30	web
433	Leeward Islands used in St Kitts: Dieppe Bay DB duplex cancels on QV ½d and 2½d plus KGV 2d grey (1923). The latter very clear but the two QV stamps identifiable but less clear.	30	web
434	Ten items of Leewards used in St Kitts to clear, mostly (six) with KGV issues on them and seemingly commercial; one SJ cover, one KG6 cover, one QEII and finally one QV – this has three of the 1902 1d opts on a cover to Saba, but not the usual set of three, instead 1 x SG18, 2 x SG19, cover has some damage or we would value higher	30	web
435	'Stanley Gibbons Inc' printed Registered envelope sent from St Kitts JY 20 1910, the registration label with the low number of 65. On it is the 5s (SG10) for which Gibbons (Ltd) don't quote a price. The envelope is made of paper that is browning and would benefit from conservation. Even Brian Brooks doesn't seem to have one of these – so we can say scarce maybe philatelic or just possibly indicating use as a parcel card	90	p11
436	Three covers from St Kitts with Columbus/Spring issue. The 2d with War Stamp 1½d sent registered to Montgomery Ward in June 1919 is our preference; but you also get three examples of the same War stamp along with ½d War Tax on OC 16 1918 cover to Port Washington and a clearly philatelic item sent to Switzerland in March 1918 with the ½d War Tax along with ½d, 1d, 2½d and 1s	45	web
437	Two large items sent to Ewens Colonial Stamp Market Ltd, in Norwood. The first has 12 examples of the 1½d WAR STAMP (SG23) and includes a block of four and strip of five in the 1s 6d rate sending an OHMS envelope in SP 1919; the second is a piece of card with handstamp 'POSTMASTER/ST.KITTS.' with blue regn crayon and a block of 20 of SG23 which must be a contender for the largest used multiple – 2s 6d the rate on JY 29 18. Even better on the reverse is stuck the despatch label for 500 sheets of 120 set of the ½d duty from requisition 62/17 and with the signature of L Scott, Crown Agents Inspector, a very rare survivor	75	p10

477	What to make of this cover from the Ship's Carpenter of HMS Rambler to Mrs Hinds of Middx, sent for a GB 1d lilac in 1898 and countersigned by the commanding officer? The neat pencil notes on the back state that HMW Rambler was in Port of Spain from 10-14 March 1898 which would fit in with the Shepherds Bush arrival d/stamp of AP 1 98 – so this is at a concessionary rate prior to the introduction of the Imperial Penny Post at Christmas that year. A pencil mark says 1990 £150+VAT – we'll start low and let you decide	50	p12
478	Postmarked in Port of Spain MY 2 1910, this envelope has a British 1d stamp affixed and has a fine 1d F.B handstamp to show postage due on arrival in London MY 17 1910	6	web
479	Printed address of a senior RAMC officer in Hampshire fronted a registered cover from Port of Spain 1913, backstamps of London and Christchurch. Narrow security strip unnecessarily reinforces each side of the cover, red regn label, black R h/stamp	15	web
480	FFC for KLM's first Trinidad-Barbados flight OC 19 38, the recipient resident in Black Rock. As Ron Wike recorded for us, the Barbados government honoured and respected its contract for KLM to carry mails between the two islands, which made commercial development awkward for NYRBA and the soon-to-emerge BWIA in this part of the Caribbean	10	web
481	Wike (p71) reports on a KLM proving flight from Trinidad 15 Dec 1939 to Ciudad Bolivar and says mail was carried without a cachet. This cover seems to have gone on that flight for 20c, clearly typed instruction 'First air mail service Trinidad – Ciudad Bolivar by K.L.M. – Royal Dutch Airlines'. Not illustrated by Wike and on KLM stationery this may be missing from many collections, fine KLM air Mail etiquette too. The service ran weekly until the occupation of Holland in May 1940 and never resumed	20	web
482	Ten covers sent from Trinidad that have been censored, All seem to have been sent airmail, and over half feature the KG6 60c stamp to pay part of the fare, so there is interest in the rates and destinations too – St Lucia and Peru noted, rest mainly USA or UK, good variety of resealing tapes used and types seemingly identified.	30	web
483	1951 Airmail cover sent registered to Jinja, Uganda at \$2.04 in postage (3 x 66c per ½oz + 6c registration) comprising \$1.20, 60c and 24c stamps. Handstamped with small A.V. 2 in circle (probably ERD for Proud AM21). A scarce combination of postage and AV2 marking to a rare destination.	35	web
484	Flight covers. A collection of 20 covers (15 First flights from Trinidad, 1 to Trinidad and 4 commercial). Mainly PAA but including CGA, NYBRA & BWIA. One damaged (not counted). Wike catalogued at about \$US400+. Each one written up on its own page	100	p12
485	Ten slogan cancels on cover and one piece with S8 'Buy Trinidad Petrol'. The covers include S44 'Dream in Bed not on the Road'; also noted are S17, S20a, S27, S29, S62, S63 – mainly from the 1970's. Should you be buying Jaz Ali's book? That is where the references can be found	12	web
